2012 Town Board Goals																									
1. Promote Development Opportunities and Enhance Financial Stability – Ensure the Town's long term financial stability by diversifying revenue streams and reliance on existing revenue sources by pursuing targeted development opportunities.			2. Encourage Environmental Sustainability – Become an energy neutral community through the continued implementation of energy initiatives, promotion of energy conservation efforts, and expansion of Town programs and incentives.			3. Expand/Invest Public Services and Public Infrastructure – Continue to expand and improve services and infrastructure by prioritizing and funding infrastructure and services needs and pursuing service sharing opportunities with other governmental entities.			4. Effective Communication through Outreach, Involvement and Engagement -- Explore and initiate methods that will continuously improve education, communication and meaningful dialog between the Town, its residents, homeowners associations, and advisory groups.			5. Financial Management – Ensure the long-term financial stability of the Town by diversifying revenue sources, continuing to explore the reduction and restructuring of existing debt, and pursuing financial self-sufficiency of utility operations.			6. Open Space - Expand the inventory of publicly owned open space within the Town through purchases and strategic acquisitions via responsible development.			7. Transportation Planning – Improve the Town transportation system by implementing priority traffic improvements, identifying and funding future traffic improvements, and pursuing partnership for regional improvements.
